The miracle wrought by low prices

"Chain stores are of real benefit not only to the consumer, but also to the grower of foodstuffs . . The chain store is raising the standard of food products at lower costs to the consumer."

No friend of chain stores said this. It was addressed by Dr. James E. Boyle, professor of rural economy at Cornell University, to a recent meeting of the Farmers' Marketing Conference in the University of Maryland.

Dr. Boyle, like everyone else who has studied the subject without prejudice, puts his finger on the point of vital importance to customers of A&P. They enjoy the highest standards of eating at lowest cost to themselves.

They raise the standard of food products by their steady buying of the best. So, too, their buying encourages ample supplies of the high grade food they demand and can afford to pay for in A&P stores.

That is why A&P stores are the largest market in the world for food only the few could buy if A&P did not cut the cost to the bone.

The municipal basketball leagues have attracted much attention among fans during the past two seasons. Even interest n Salem High's cage battles was exceeded by that shown in the city circuits for the former's attendance almost always outnumber fans at scholastic contests. Fans are given excellent exhibitions of basketball three and four nights a week at the Memorial building and it appears that the coming season will outclass any of previous

Salem's quartet of athletic officials has been reduced to a triumvirate J. Donald "Pete Scullion has gone to Cleveland o accept a position with the American Steel and Wire company there, it was announced This leaves Joe Kelley, Sam Watkins and Rafael Reasback to iron out difficulties of the gridiron without one of the district's outstanding officials. Scullion, besides being a widely known official, managed the Dunn Eden baseball club last season and was a member of the city's athletic arbitration board.

Salem's chances for a new season's gridiron scoring record look blue in face of the fact it has only three more games to play and two of them are against Youngstown South and Alliance. In the three the Quakers must tally 57 season, a record established in 1922 To-date, in seven games, Salem has Daniel Snider, aged residents of this scored 210 points to 45 by oppon-

## **RUSSIAN BEAR'S CLAWS FELT IN WHEAT TRADING**

### Operations of Agents Of Soviet Proved By Government

NEW YORK, Nov. 5 .- The feet of the Russian bear have left their clawed imprint on America's wheat

With the amazing news that the Soviet government has calmay sold 5,000,000 bushels of wheat in Chicago at short prices have come astonishing disclosures of the con-templated foreign selling schemes for dumping wheat of a regime that shoots its people for forging bread cards.

Farmers throughout the country have been profoundly agitated by Soviet selling activities in the Chicago wheat pit. The operations have been conducted under the auspices of the All-Russion Textile Syndicate and during the four days that sales continued, the price of wheat dropped from 991/2 cents to the new low of 941/8 cents—a loss of five cents. This bear movement is attributed by experts to the Sov let operations and is declared to be an endeavor by Russia to depress prices and thus cause discontent throughout the United States.

E. V. Belitzky, president of the All-Russian Textile Syndicate, has defended the policies of the company by declaring that the total transactions fall far short of the estimated number of bushels said to have been unloaded in the Chicago market. But Secretary of Agriculture Hyde has discounted this figure by the disclosure that ever 7,500,000 bushels were disposed of by the Soviet agents in four days through only brokers. Investigators are probing for further sales and it is thought likely that additional transactions will be uncovered.

The amazing disclosure of wheat famine in a country that is able to dump millions of bushels of wheat in other markets adds to the bewildering news of the Soviet wheat operations in Chicago.

That the scant bread rations doled out to the people in Russia or about 500, actually stay lost. The said that Judge Crater destroyed are necessary to render the dinner doled out to the people in Russia or about 500, actually stay lost. ing of the Red propaganda seed.

At present no white bread available in Russia, except children under 10 years of age. Industrial workers have food cards entitling them to from one-half to three-fourths pound of rye bread a day. Their children are only permitted a quarter of a pound of bread each daily. Men are being executed for forging the food cards that, in Russia, are the nec essary passport to enough food to sustain life. And yet Soviet Russia is able to sell millions of bu-

shels of wheat in foreign markets.

Cabled reports from Rotterdam are daily bringing fresh news of markets of Holland, Germany and Italy. Wheat prices on the Liver-pool market fall sharply with the report that large quantities grain have been recently shipped from Black Sea ports enroute to Italy, and also to British ports. Observers believe that Russia is in the market for grain ships in order that she may have her own bottoms for shipping wheat in order to further reduce the price and so flood the world.

It is believed that Secretary Hyde will take immediate steps to curb the operations of Soviet Russia in American grain markets. Members of the Chicago board of trade are to make an immediate investigation of the whole trans

Salem's quartet of athletic officials has been reduced to a triumvirate J. Donald "Pete Scullion has gone to Cleveland to accept a position with the American Steel and Wire company there, it was announced today. This leaves Joe Kelley, Sam Watkins and Rafael Reasback to iron out difficulties of the gridiron without one of the discrict's outstanding officials. Scullion, besides being a widely known official, managed the Dunn Eden baseball club last season and was a member of the city's athletic arbitration board.

Salem's chances for a new sea on's gridiron scoring record look blue in face of the fact it has only three more games to play and two of them are against Youngstown South and Alliance. In the three games the Quakers must tally 57 points to create a new mark for a eason, a record established in 1922. ## **RUSSIAN BEAR'S** CLAWS FELT IN WHEAT TRADING

Operations of Agents Of Soviet Proved By Government

NEW YORK, Nov. 5.—The feet of the Russian bear have left their clawed imprint on America's wheat

With the amazing news that the Soviet government has calmay sold 5,000,000 bushels of wheat in Chicago at short prices have come templated foreign selling schemes for dumping wheat of a regime that shoots its people for forging bread cards.

Farmers throughout the coun try have been profoundly agitated Soviet selling activities in Chicago wheat pit. The operations have been conducted under the auspices of the All-Russion Textile Syndicate and during the four days that sales continued, the price of wheat dropped from 991/2 cents to the new low of 94% cents—a loss of five cents. This bear movement is attributed by experts to the So let operations and is declared to be an endeavor by Russia to depress prices and thus cause discon-

tent throughout the United States E. V. Belitzky, president of the All-Russian Textile Syndicate, has defended the policies of the com-pany by declaring that the total transactions fall far short of the estimated number of bushels said to have been unloaded in the Chicago market. But Secretary of Agriculture Hyde has discounted this figure by the disclosure that ever 7,500,000 bushels were disposed of by the Soviet agents in days through only brokers. Investigators are probing for further sales and it is thought likely that additional transactions will be uncovered

The amazing disclosure of wheat famine in a country that is able to dump millions of bushels of wheat in other markets adds to the bewildering news of the Soviet wheat operations in Chicago.

That the scant bread rations doled out to the people in Russia may be part of a program to conserve the wheat intended for dumping abroad is the impression of experts who are studying every phase of the uniue situation just uncovered by Secretary Hyde. It is declared that the purpose of the Soviet is to dump wheat, lower prices, and so cause discontent throughout the world, thus prepar-ing a suitable ground for the sowing of the Red propaganda seed.

At present no white bread available in Russia, except children under 10 years of age. In dustrial workers have food cards entitling them to from one-half to three-fourths pound of rye bread a day. Their children are only permitted a quarter of a pound of bread each daily. Men are being executed for forging the food cards that in Russia, are the necessary passport to enough food to sustain life. And yet Soviet Rus-sia is able to sell millions of bushels of wheat in foreign markets. Cabled reports from Rotterdam

are daily bringing fresh news of Soviet tactics in bearing the grain markets of Holland, Germany and Italy. Wheat prices on the Liver-pool market fall sharply with the report that large quantities grain have been recently shipped from Black Sea ports enroute to Observers believe that Russia is in the market for grain ships in order that she may have her own bot toms for shipping wheat in order to further reduce the price and so flood the world.

It is believed that Secretary Hyde will take immediate steps to curb the operations of Soviet Russia in American grain markets. Members of the Chicago board of trade are to make an immediate investigation of the whole trans-
